

**Meeting Announcement
Digital Preservation and Education**

We're happy to announce that the Minnesota Historical Society is collaborating with the Minnesota Digital Library to present sessions on digital preservation and education at its annual conference. Details on the conference are online:

<http://www.mndigital.org/>

The Minnesota Historical Society, in collaboration with the Midwest Art Conservation Center, received a Connecting to Collections statewide preservation planning grant from the Institute of Museum and Library Services. This project identified assistance with digital collections to be a high priority need in the state.

We hope you can attend this meeting. What we learn will enhance our final report to the IMLS for our Connecting to Collections grant and, in the best of all worlds, an implementation proposal to the IMLS.

Hope to see you at the meeting!
