

Next week the First Lady will be taking over the mic. She'll fill-in for me while I'm out-of-town.

- She's going to focus on women at work, specifically...
 - *Her own personal experience*
 - *Juggling work and family*
 - *Things women can do to manage stress*
-
- Like me, she cares deeply about farmers
 - *The major role women have in farming in today's economy*
 - *Problems women run into when trying to homestead a farm*
-
- She'll have guests and take your calls next week
