

Rebate the surplus from current biennium.

Reform and reduce taxes.

Decrease our reliance on property and income taxes for state and local government expenditures.

With a strong economy I don't believe that the cost of government should expand at an accelerated rate.

Our education spending will be very targeted.

Higher Education money will be directed to areas that will promote critical job shortages in the workforce. (Nursing/Teaching)

I will submit a biennial and capital budget so, absent an emergency, there is no need for a second session.

If the February forecast changes the outlook I will revise my budget so that it will remain structurally balanced.

Looking forward to working with you.
